

DUST COLLECTION

Dust Collection Systems on this flyer show our varied capability to meet customers' specific needs.

Filter assembly has cartridge filters and suction fan with automatic cleaning of filters at timed intervals.

Simple self contained blower with collection filter bags.

Cyclone assembly with air lock to be connected to filter assembly. Bottom hopper assures that flock or other light material will be separated from the air thus lightening the load from the final filter assembly.

**This information only represents a few of the machines we have done.
Call us and discuss your exact needs today.**

Together we build a better product.
