

# ENTRANCE CONVEYORS

Entrance Conveyors provide adjustable height and angle adjustment to support an extrusion from an Extruder to a Salt Tank or Oven. They have precision speed control to assure uniform pull from the extruder for size control.

Some customers have special applications. We accommodate by providing equipment that meets their needs. This Entrance Conveyor has a removable roller conveyor mounted above the belt.

**This information only represents a few of the machines we have done.  
Call us and discuss your exact needs today.**

*Together we build a better product.*

# CONVEYORS

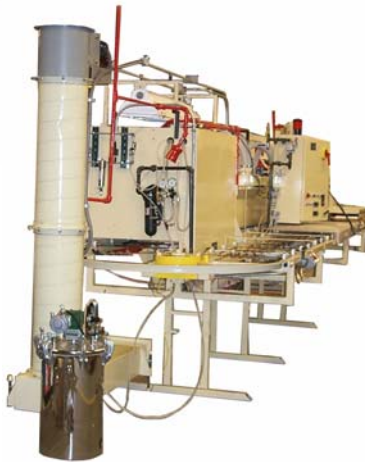

Transfer Conveyor used to handle a hot extrusion. Conveyor has a high temperature belt. Lid is insulated so the product loses minimal heat in the transfer.

Special Incline Conveyors for handling rubber from a mill to a secondary process.

(3)-150# CO2 Fire Suppression tanks for Coating System

Specialty Conveyor with fixtures for Coating System.

Special Roller Conveyor with simple height adjustment on one end. Conveyor was used to cool an extrusion. Air tubes under the rollers and along the sides provide cooling.

## Quality Puller/Hugger Belts For extrusion equipment

- ◆ Standard V-Groove Belts, with options of flat, timing and other special types.
- ◆ Standard Belt width of 4", optional widths from 2 to 12" in varied increments.
- ◆ Belt thickness range from 1/16 to 5" in varied increments.
- ◆ Large varieties of covers, materials and foundations possible.

- ◆ Recovered Belts: We also reprocess with new cover placed on stripped foundation.

**Other services include rebuilding/refurbishing used equipment to like new condition.**
